EDUCATION

Baguio Central university

2022 - 2026

BS in Computer Science

Loo National High School

2020 - 2022

STEM

PROFILE

A Computer Science student with strong computer literacy and a growing foundation in software development. I am adaptable, detail-oriented, and capable of working in both technical and general administrative roles. I am seeking entry-level opportunities where I can contribute, learn, and develop practical professional experience.

EXPERIENCE

OJT/Practicum – DOST – CAR | Jan 2026 – Apr 2026

- Assisted in designing and implementing core features, including a role-based authentication system for multiple user levels (employees, HR, secretaries, and administrators), along with system testing and iterative improvements.

Freelance Software Developer | Oct 2025 – Dec 2025

- eLMS (eLearning Management System) – Helped develop a role-based learning management system developed as part of a contract-based thesis project. The system supports administrators, instructors, and students in managing learning modules, schedules, and submission workflows.
- BES (Billing and Enrollment System) – A web-based enrollment and billing management system designed to handle student registration, class assignment, and fee tracking for academic institutions.
